Expertise of 4 years in **JavaScript, ReactJS, NodeJS, AWS, Adobe Experience Manager (AEM), HTML / CSS** and Java. Demonstrated success in designing scalable cloud solutions, optimizing performance, and ensuring security compliance. Skilled in collaborative project delivery and seeking software development opportunities to contribute technical expertise and drive innovation.

TECHNICAL SKILLS

- **Languages:** C, C++, Python, SQL, JavaScript, HTML5, CSS
- **Frameworks:** **AEM, MERN, ReactJS, Redux, NodeJS, ExpressJS. MongoDB**
- **Others:** AWS, JQuery, Agile methodology, VS Code, GitHub, BitBucket, GitLab, Snow, Bootstrap, Jira. Confluence. NVDA, Data Structures and Algorithms, Postman, SauceLabs $\text{\LaTeX}$.

Industrial Experiences

Accenture

June 2023 - Present

Custom Software Engineering Analyst

Bengaluru/Pune

- Developed and maintained web applications using JavaScript, achieving an **8 percent increase in application speed**.
- Directly involved with client interactions and supervised a team of 3. **Received Award "Client Value Creation August 2023"** for client management.
- Collaborated in building libraries for multi-site management systems.
- Integrated web services and/or third-party APIs like Google Maps for fetching real time store and product availability details.
- Ensured 100 percent successful, on-schedule development and delivery of application.

Accenture

May 2021 - May 2023

Application Development Associate

Bengaluru/Pune

- Worked with 4 cross-functional teams to build and maintain e-commerce websites and ensured cross-browser usability.
- Implemented social media option and newsletter email functionality.
- Utilized jQuery and AJAX for backend integration to update applications in real time.
- Created unit test cases and tested all scenarios for the code fixes.

HighRadius

April 2020 - June 2020

Full Stack Intern

Bhubaneswar

- Developed a full stack web application from scratch after analyzing about 1000 records of data, including back-end services, front-end interface, and database.
- Technologies used - React JS, Machine Learning, NLP, SQL
- Project- AI Enabled FinTech B2B Invoice Management Application

Indian Institute of Technology

May 2019 - June 2019

Android Intern

Bhubaneswar

- Developed an Android application from scratch with modern user interface and intuitive user experience.
- Technologies used - Android, SQL
- Project - Application to manage schedule - Barbapp

EDUCATION

Indian Institute of Technology, Roorkee

2024 – 2025

Masters in Software Development

Kalinga Institute of Industrial Technology, Bhubaneswar

2017 – 2021

Bachelors in Information Technology

ACHIEVEMENTS

- **Certificates:** AWS Certified Cloud Practitioner – Foundational
- **Awards:** Star Performer of the month twice in Accenture, Client Value Creation Award in Accenture, Nurturing Minds & Demonstrating Leadership Award - Accenture, Selected for Mentorship in Teksystems 2021, Qualified in Codevita National coding Challenge by TCS 2021
