Software Developer with **4+ YOE** in building production grade apps(CRUD, Android, AI tools) using **React Native, ReactJS, NodeJS, Express, MongoDB, AWS**. Strong foundation in **DSA (highly rated on leetcode)**. Proven track record in building scalable cloud solutions and full-stack applications, with a focus on performance, security, and collaborative software delivery.

TECHNICAL SKILLS

- **Languages:** JavaScript, Python, Java, C, C++, SQL, HTML5, CSS
- **Frameworks:** **React Native, MERN, ReactJS, Redux, NodeJS, ExpressJS, MongoDB, AEM**
- **Others:** AWS, JQuery, Redis, Agile methodology, VS Code, GitHub, BitBucket, GitLab, Snow, Bootstrap, Jira, Confluence, NVDA, Data Structures and Algorithms, Postman, Saucelabs $\text{\LaTeX}$.

Industrial Experiences

Accenture

May 2021 - Present

Custom Software Engineering Analyst

Bengaluru/Pune

- Developed a cross-platform web and mobile application using **React Native, ReactJS, Node.js, Express, and MongoDB** to manage product availability and user interactions.
- Integrated **RESTful APIs with MongoDB** data handling for real-time performance and scalability.
- Collaborated with **cross-functional teams** to design a modular architecture and ensure seamless deployment across platforms.
- Integrated third-party APIs (e.g., **Google Maps**) for real-time store data and **ensured 100% on-time delivery** of the application.

Application Development Associate

- Developed dynamic, reusable web components using **Adobe Experience Manager (AEM) and Vanilla JavaScript** for enterprise content management.
- Implemented **Sling Models and AEM templates** to handle frontend logic and data binding.
- Employed **Agile** best practices with tools like **Jira, GitLab, and Postman**, and **ensured CI/CD** through version-controlled pipelines and peer-reviewed code.

HighRadius

April 2020 - June 2020

Full Stack Intern

Bhubaneswar

- Developed an AI-enabled FinTech B2B Invoice Management Application to streamline Accounts Receivable operations using ReactJS, Java, JDBC, and JSP.
- Designed a responsive Receivables Dashboard featuring dynamic visualizations (clickable bar charts), advanced search filters, and editable grid components with real-time updates.
- Integrated a Machine Learning model to predict partial payment amounts and payment types, and embedded a domain-specific chatbot ("Professor") for natural language-based invoice queries.

Indian Institute of Technology

May 2019 - June 2019

React Native Intern

Bhubaneswar

- Created a schedule management app using React Native with SQL-based local storage.
- Prioritized performance optimization, UI/UX clarity, and cross-platform compatibility.

EDUCATION

Indian Institute of Technology, Roorkee

2024 – 2025

Masters in Software Development

Kalinga Institute of Industrial Technology, Bhubaneswar

2017 – 2021

Bachelors in Information Technology

ACHIEVEMENTS

- **Certificates:** AWS Certified Cloud Practitioner – Foundational
- **Awards:** **Star Performer of the month** twice in Accenture, **Client Value Creation Award** in Accenture, **Nurturing Minds & Demonstrating Leadership Award** - Accenture, Selected for **Mentorship** in Teksystems 2021, Qualified in **Codevita National coding Challenge** by TCS 2021
